TOTAL	6282

RECENT UPDATES

New releases for all sports will be out before each season begins, with fall sports no later than July 11. Yearly updates include new software features, bug fixes, and improvements to the Web-Sync process.

Web-Sync:

- Game High Reports – 40 New reports & 200 Categories: Summary & Detailed View for Division Team, Division Individual, Conference Team & Individual
- Game Book & Game File Upload/Download
- Stellar Reports (Basketball/Football)
- Added "All Times Local" to Schedule Pages

Common to Every Sport:

- In-game Twitter Integration
- Additional Publisher-Ready Reports - Rankings, Leaders, Roster & Schedule (Own & Opponent)
- Improved Career ID Linking - Prompt at Beginning of Season

Baseball/Softball:

- Superlative Team & Individual Reports

Basketball:

- New Edit Features (Two-Click)
- Keystroke Entry (Two-Click)
- Added Team Abbreviation to Webcast Plays

Football:

- Superlative Team & Individual Reports

Soccer:

- Superlative Team & Individual Reports
- Prompt for Goalie Shutout on File Import

WEB-SYNC DATA INTEGRATION

Player of the Week Nominations*
All American Voting*
Regional Rankings*

NAIA Scoreboard*
Year End Publishing#
Scores Widget+

Publisher-Ready Reports°
Teams*

* - interfaces with Greg Black / SID Help

+ - interface available for any school's IT or webmaster (enhance your website)

- available on-demand to be used by SID via simple web-form

° - available from the Web-Sync menu in DakStats software

Web-Sync Images

Each team can upload team logos and headshots for each player. If a player headshot doesn't exist, you do NOT need to upload generic headshots for each player—the site will automatically default to the team logo. If team logo doesn't exist, it will default to the 'no headshot' image.

INTERFACING OPTIONS

If you are already using DakStats In-Game, it's no extra effort to do the following:
Game Cast, Press Row Monitors, Webcast, Scoreboards, Message Centers

COMMON PROBLEMS

Duplicate Games – Enter your schedule as early as possible and double-check the *Date*.

Duplicate Teams – The 'Team Code' is important as it is how we identify each team. Use the **Via List** function in the *Configure Teams* window to add NAIA schools. Use 99999 for non-NAIA schools.

Duplicate Players – Keep your own roster on the Web-Sync site up-to-date to help other SIDs. Fix duplicate players ASAP – we can help!

Career Links – For career stats purposes, use the **Reconcile Player ID** under the **Advanced Features** of the **Web-Sync > Setup** window. Ask for help when linking up players who have transferred from other NAIA schools or have skipped a year of play.

Lost All Data – If your hard drive crashes and you don't have your season backed up, you can go to **Web-Sync > Retrieve game file** to download box mode versions of each game that has been uploaded to the website.

For Help & More Information

- Visit www.dakstats.com
 - Click on **Organizations**, then **NAIA**
 - Click on **Support** for Knowledge Base, Manuals, Forum
- NAIA SID GUIDE (31 pages & Checklist)
- Software itself includes built-in Manual and Quick Start Guide under the **Help** menu.
